

CLEANSERS

step 1

cleansing is the **all important first step** in any skin care regimen, without the **proper cleanser** everything else you do afterwards is for nothing - soap or just plain water wouldn't do it!

✓ MILK CLEANSER *for sensitive, dry, fragile, mature or dehydrated skins*

A deep cleansing milk - **whisks away debris, dirt and makeup without dehydrating or stripping your skin.**

- non-comedogenic, non-allergenic
- alcohol, color, fragrance / perfume, oil, disinfectant and irritant free
- gentle on skin, yet effective against impurities
- fully water rinsible and soluble
- removes easily with luke warm water or water and the facial shammy / sponge cloth
- leaves skin clean, clear, soft and supple - no greasy, filmy or dry feel
- with soothing botanical extracts - Whole Leaf Cold Processed Aloe Vera, Jojoba, Squalene, Marygold, Wild and Romand Chamomile - with vitamins A & E to condition the skin

MORE INFORMATION

- for pricing see Skin, Body, Hand, Foot & Nail Care Listing.
- for detailed descriptions, how to use and ingredients - call us, see Nancy K. Brown literature or visit our website @ www.nancykbrown.com

✓ FACIAL SHAMPOO - classic or peach essence

for normal, oily, acne prone, or acneic skins

This deep cleansing gel face wash **foams to a rich lather to thoroughly cleanse the skin** - removing dirt, debris, makeup and excess oils without dehydrating or stripping.

Provides skin with a 'soap and water squeaky clean feel' without any of the residue & harmful drying effects of soap.

- non-comedogenic, non-allergenic - fully water rinsible and soluble
- alcohol, color, fragrance / perfume, oil, disinfectant, irritant and soap free
- gentle on skin, yet effective against impurities
- foams to a rich - natural Aloe Vera saponin provides wonderful foaming action, so no need for sodium lauryl sulfate or sodium laureth sulfate (two know irritants found in many skin products)
- leaves skin clean, clear, soft and supple (no greasy, filmy or dry feel)
