

TONERS

step 2

toning - the important second step in any skin care regimen - misunderstood & often skipped - is **essential in re-balancing the skin's acid mantle's pH** to its proper level so that the products in the next steps of your skin care regimen can do their job effectively.

✓ LIQUID TONER *for normal, oily or acneic skins*

A soothing, calming and hydrating moisture boost for the skin. Designed to effectively help re-establish the skin's optimal pH balance. **With additional oil normalizing and controlling properties.** Prepares, tones, refreshes and nourishes the skin, to receive and better utilize active products and ingredients.

- non-comedogenic, non-allergenic
- alcohol, color, fragrance, oil, disinfectant and irritant free
- **with Lactic Acid for additional oil problem control**
- quick absorbing
- contains 98.6% Whole Leaf Cold Processed Aloe Vera (by volume)
- spray directly onto skin, or use a cotton pad
